

JomBoss Weekly PA Workflow

1. Purpose

This document defines the weekly operating rhythm for the JomBoss Codex PA system.

The goal is to make sure JomBoss does not lose track of documents, decisions, clients, revenue, legal risks, product progress, or investor-readiness tasks.

The weekly PA workflow should help G act like the CEO of an organised company, not a founder relying on memory.

2. Weekly Review Cadence

Recommended review frequency:

- Once per week
- Preferably Sunday night or Monday morning
- Duration: 45 to 90 minutes
- Owner: G
- Assistant: Codex

3. Weekly Codex Prompt

Use this prompt at the start of each weekly review:

Run the JomBoss Weekly PA Review.

Read the following files first:

1. 00_SYSTEM/JOMBOSS_MASTER_PROTOCOL.md
2. 00_SYSTEM/DATA_ROOM_MASTER_CHECKLIST.md
3. 00_SYSTEM/WEEKLY_PA_WORKFLOW.md
4. 00_SYSTEM/DECISION_LOG.md
5. 00_SYSTEM/OPEN_ISSUES.md
6. 01_COMPANY/CURRENT_TRUTH.md
7. 10_INVESTOR_DATA_ROOM/DATA_ROOM_GAP_TRACKER.md

Then generate a CEO Weekly Review covering:

1. What changed this week
2. What documents were added or updated
3. What critical data room items are still missing
4. What claims remain unsupported
5. What financial, legal, or IP risks need attention

6. What client, revenue, or talent updates need recording
7. What decisions require G's approval
8. What should be updated in CURRENT_TRUTH.md
9. What are the top 5 priorities for next week
10. What files should Codex create or update now

Do not invent facts. If information is missing, mark it as missing and propose the next action.

4. Weekly Review Output Format

Codex should produce the weekly review in this format:

```
# JomBoss CEO Weekly Review
Date:

## 1. Executive Summary

## 2. Updates This Week

## 3. Data Room Progress

## 4. Missing Critical Documents

## 5. Financial Updates Needed

## 6. Client and Revenue Updates Needed

## 7. Talent and PM System Updates Needed

## 8. Product and Platform Updates Needed

## 9. Legal, Compliance and IP Risks

## 10. Decisions Required from G

## 11. Top 5 Priorities for Next Week

## 12. Files to Create or Update

## 13. Notes for Decision Log

## 14. Notes for Open Issues Register
```

5. Weekly Checklist for G

Before running the weekly review, G should prepare quick updates on:

1. New clients this week
2. New invoices issued
3. Payments received
4. Talent payouts made
5. New contracts or quotations signed
6. New product or platform progress
7. New legal or compliance concerns
8. New team role changes
9. New investor, grant, accelerator, or mentor updates
10. Any decisions made informally during the week

6. Weekly Data Room Maintenance

Each week, Codex should check:

1. Are any critical documents still missing?
2. Are any draft documents now ready?
3. Are any old documents still being treated as current?
4. Are any files missing classification labels?
5. Are any investor-facing claims unsupported?
6. Are any legal or financial files stored in the wrong location?
7. Are restricted internal documents accidentally placed in investor-safe folders?
8. Are new client or revenue records properly linked to evidence?
9. Are new decisions recorded in `DECISION_LOG.md`?
10. Are unresolved issues recorded in `OPEN_ISSUES.md`?

7. Weekly CEO Priority Logic

Codex should prioritise tasks using this order:

1. Anything that affects legal ownership or equity
2. Anything that affects IP ownership
3. Anything that affects revenue verification
4. Anything that affects client contracts
5. Anything that affects talent or worker compliance
6. Anything needed for investor or accelerator diligence
7. Anything needed for product roadmap clarity
8. Anything needed for team execution
9. Anything needed for branding or external presentation
10. Anything optional or nice to have

8. Monthly Review

At the end of each month, Codex should generate a monthly review covering:

1. Revenue for the month
2. Client wins and losses
3. Retainer clients
4. Total student payouts
5. New talents activated
6. Data room completion percentage
7. Product progress
8. Legal and compliance gaps
9. Investor readiness score
10. Next month priorities

9. Investor Readiness Score

Codex should score JomBoss monthly using this framework:

Area	Score / 10
Corporate documents	
Founder and equity clarity	
Financial records	
Revenue verification	
Client contracts	
IP ownership	
Product documentation	
Operations and SOPs	
Talent compliance	
Legal risk control	
Investor narrative	

Final score:

Total Score: /100
Verdict:
Top 3 Weaknesses:
Top 3 Actions:

10. Weekly Reminder Message Template

If G wants to create an external reminder, use this reminder text:

Time for JomBoss Weekly PA Review.

Update the JomBoss Mastermind repo with this week's:

1. Clients
2. Revenue
3. Payments
4. Contracts
5. Talent payouts
6. Product progress
7. Data room documents
8. Decisions made
9. Legal or IP issues
10. Next week priorities

Then run the Weekly PA Review prompt in Codex.

11. Final Rule

The weekly PA workflow exists to prevent JomBoss from operating from memory.

Every week, the company should become more organised, more verifiable, and more investor-ready.
