

JomBoss YC-Level Data Room Master Checklist

1. Purpose

This checklist is the master control document for building and maintaining the JomBoss investor data room.

The goal is to make JomBoss due-diligence ready from an early stage by organising all key corporate, financial, legal, operational, product, customer, and fundraising materials in one structured system.

The data room should help JomBoss answer investor, accelerator, grant, and partner questions with evidence.

2. Data Room Standard

A document is considered data-room ready only if it is:

1. Accurate
2. Current
3. Properly named
4. Stored in the correct folder
5. Classified by confidentiality level
6. Supported by source evidence where needed
7. Free from obvious contradictions
8. Clearly marked if draft or unapproved

3. Status Labels

Use these status labels:

Status	Meaning
Ready	Complete and usable
Draft	Exists but not final
Missing	Not created or not found
Needs Review	Exists but may be outdated or inaccurate
Needs Legal Review	Requires lawyer or company secretary input
Needs Financial Review	Requires accountant or finance review
Restricted	Exists but should not be shared externally
Not Applicable	Not relevant to JomBoss at this stage

4. Priority Labels

Use these priority labels:

Priority	Meaning
Critical	Required before serious investor or grant diligence
High	Important for credibility and organisation
Medium	Useful but not immediately urgent
Low	Nice to have or future-stage item

5. Confidentiality Labels

Use these confidentiality labels:

Label	Meaning
public	Can be publicly shared
investor_safe	Can be shared with serious investors or accelerators
client_safe	Can be shared with clients
internal	Internal JomBoss use only
restricted_internal	Sensitive company strategy or operating logic
legal_sensitive	Legal agreements, risk notes, compliance materials
financial_sensitive	Financial records, bank statements, payouts
personal_data	Personal information of individuals

6. Weekly Review Questions

Every weekly review should answer:

1. What new documents were added?
2. Which documents were updated?
3. Which critical documents are still missing?
4. Which claims are still unsupported?
5. Which files are outdated or conflicting?
6. Which items need legal review?
7. Which items need financial review?
8. What should be done before the next investor, grant, or accelerator submission?

9. What are the top 5 CEO priorities for the coming week?
10. What should Codex update in the repository?

7. Final Rule

This checklist must be treated as a living document.

Every time JomBoss creates, updates, signs, or receives an important document, this checklist should be updated.
